

Projectworks Tune Up

Expert-led, focused time to get Projectworks working exactly the way you need it.

/ WHAT IS A TUNE UP?

Get more from *Projectworks*

A Tune Up keeps Projectworks working at its best for your business. We review your setup, find opportunities to improve efficiency and insight, and make sure your processes and system usage evolve as fast as your business does.

Improve visibility

Get clearer sight of the metrics that matter most to your business.

Adopt new features

Unlock or embed features your team hasn't fully used yet.

Upskill your team

Build confidence and best-practice habits across your people.

Flexible by *design*

Sessions are fully flexible. We tailor them around specific roles in your business, or you set the agenda based on what matters most right now. There is no fixed curriculum; the focus is entirely on your needs.

- Tailored to your team's roles or your chosen priorities
- Run as a single focused block or spread across multiple sessions
- Covers the topics you need, nothing more, nothing less
- Suitable for onboarding, training refreshers, or operational enhancements

Pricing: **scoped**

Pricing is determined alongside your requirements.

Duration: **flexible**

A few hours to a few days, on site or virtually on request.

A typical *engagement*

A Tune Up runs in four steps, shaped around your team and your goals.

/ STEP 1

Discovery call

We map out your goals, current challenges, and who should be involved.

/ STEP 2

Session design

We tailor the agenda around your team's roles or your chosen focus areas.

/ STEP 3

Tune Up session(s)

Hands-on time with your team: optimizing, troubleshooting, and training.

/ STEP 4

Follow-up notes

A brief summary of what was covered and any recommended next steps.
